		AND REACTIVITY			
	Chamically stable. This material presents as significant				
CONDITIONS TO AVOID :	Chemically stable. This material presents no significant reactivity hazard.				
	Avoid sparks. Ilarne and excessive heat.				
	Strong midizing agents.				
	Combustile liquid.				
	Will not occur.				
IAZARDOUS COMBUSTION :	When heated to decomposition produces acid fumes an	nd carbon monoxide smoke.			
	SECTION 11 : TOXICOLOGI	CAL INFORMATION			
IHALATION :	Inhalation ot high concentration of vapor may result in ir	rritation on eyes,			
KIN CONTACT :	Repeated or prolonged contact can cause redness. irritation and scaling of skin (Dermatitis).				
YE CONTACT :	May irritate eyes.				
IGESTION :	Low order vorticity arising iritation of the stomach and intestines, resulting it nausea and vomiting.				
	May aggravate dermatitis, psoriasis and other skin cond				
GGRAVATED BY EXPOSURE :	,				
	No adverse effects on reproduction are known.				
	No data is currently available.				
	SECTION 12 : ECOLOGIC	AL INFORMATION			
	Very toxic to aquatic organism; may cause long-term ac				
	Avoid any pollution of ground, surface or underground v	vater.

	SECTION 15 : OTHER REGULA	ATORY INFORMATION			
	Group III, Class 3				
MIS (USA) :	Health Hazard - N/A; Fire Hazard - N/A; Reactivity - N/A				
ARA 302/ SARA 313 :	None				
ALIFORNIA PROPOSITION 65 :	This product does not contain chemical listed per the Safe Drinking Water and Enforcement Act of 1986.				
	R10 - Flammable.				
	Xn R22 - Harmfull is swallowed.				
:	Xi R38 - Irritation to skin				
	S36/37/38 - Wear suitable protective clothing, gloves an	nd eye/face protection.			
	SECTION 16 : OTHER	ΙΝΕΟΒΜΑΤΙΟΝ			

When utilized by professionals following the conventional good manufacturing practices, the aromatic materials are not severly dangerous. However, the preceding precautions and the following general operation rules must be respected. Keep the product away from any food or drink. It is an industrial product and must not be ingested as such Eating, drinking and smoking should not be permitted in handling and packaging areas. Cases of auto-flammability of several fragrance materials are reported. Consequently, the materials used to mop up the product (sponges, absorbent papers, sawdust, etc...) must be rapidly eliminated. The refuse-bins in the manufacturing areas must be cleared out. Transfer to a flammable waste container and incinerate at approved site. The product must not be heated with, or exposed to, open flames or other sources of ignition. Do not expose the product to unprotected electrical equipment. Never overheat the product. Do not breathe hot vapours. In any case of potential poisoning, get medical advice.

SECTION 17 : DISCLAIMER

The information above is given is good faith and is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigations to determine the suitability of the information for their particular purposes. In no event shall ZAYAT AROMA INC. be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, howsoever arising, even if ZAYAT AROMA INC. has been advised of the possibility of such damages. This data is not to be constructed as absolutely complete since additional data may be desirable when particular conditions or circumstances exist. This data relates only to the specific material designated and not to be used in combination with any other material. Many regulations pertain directly or indirectly to the product's end use and disposal of containers and unused material. It is the purchaser's responsibility to familiarize themselves with all applicable regulations.
